Carlos González Ledo

Cybersecurity Engineering Student | Sys Admin
Fuenlabrada, Community of Madrid, Spain

Summary

I am a Cybersecurity Engineering student with a solid technical foundation as a graduate in Systems Administration. My passion for information protection and technological development has led me to specialize in the field of cybersecurity, where I am dedicated to learning and applying defense and threat prevention strategies in digital environments.

In addition, I have a strong interest in artificial intelligence (AI) development, a field I consider essential for the future of technology and one that complements my technical skills. I am constantly seeking opportunities to grow professionally and contribute to innovative projects that integrate cybersecurity and AI.
